

Our Membership Committee

The Membership Committee is a permanent committee of the ISEAL Board of Directors that is responsible primarily for member compliance with ISEAL Codes of Good Practice, forming recommendations on new membership applications, and deciding on appropriate action should any complaints be received against ISEAL members or subscribers.

The Committee brings together representatives from ISEAL full members who have a strong overall understanding of sustainability standards. It is composed of up to 6 individuals appointed by the ISEAL Board.

Meeting at least once a quarter, the Committee plays a key role in protecting the credibility of ISEAL membership, and provides input on related policy developments.
