

Our Technical Committee

The Technical Committee is a permanent sub-committee of the ISEAL Board that is responsible primarily for technical oversight of the ISEAL Codes of Good Practice and other Credibility Tools.

The Committee brings together representatives from both ISEAL members and external stakeholders who have a strong overall understanding of sustainability standards. It is composed of up to 9 individuals appointed by the ISEAL Board, of which up to 1/3 are full or associate members of ISEAL.

The Technical Committee has responsibility for approving the content of new and revised Codes. Decisions of the Committee are then formally approved by the ISEAL Board, who make their decision based solely on the quality of the Code development or revision process followed.

Committee members 2018-2019:

- Andreas Kratz, Fairtrade International (ISEAL Board liaison)
- Joana Barata Correia, Inter IKEA Group
